

**VILLAGE OF TINLEY PARK
BUILD-OUT
INTERIOR REMODEL
PERMIT APPLICATION PROCESS**

A business that is moving into a new commercial building that is considered a “shell” or a “vanilla/white box” will require a build-out permit. Because the vanilla or white “boxes” generally consist of only very basic heating/cooling, electrical, plumbing, fire suppression/fire alarm system, and a concrete slab floor, a build-out permit is required for construction specific to the tenant occupying the space, for example interior walls for office space, a restaurant kitchen, or doctors examination room.

An interior remodel permit is issued for a space that was previously occupied by another tenant or expansion for an existing tenant. **Because walls are often moved, this most often requires re-location of fire sprinkler heads. Fire suppression/alarm permit applications will be required to be submitted along with the remodel permit application.**

The Building Department would like to make the construction permit process as simple as possible. Plans and a one page permit application and a completed plan checklist will start the permit process. Contractors do not have to be listed at application submittal, but will be required to be listed, licensed and bonded before a permit is issued. A checklist of plan details and contractor license and bond information is attached. **Please submit these plans to the Village of Tinley Park, 16250 Oak Park Avenue, Tinley Park, Illinois, 60477, to the attention of the Building Commissioner.**

The plans presented for review for any of these types of permits will be distributed to our Building, Public Works/Engineering, and Fire Departments, and depending on the extent of the project, an outside plan review agency, for staff review. When all departments have reviewed the plans, a letter will be sent to the Architect, with a copy to the Developer/General Contractor from the Building Commissioner, outlining the comments and/or requirements from each department to be addressed.

The Architect/Developer is required to provide the Building Commissioner with a written response to each item, and if necessary, revised plans (revised plans may be cut sheets). This written response will be forwarded to staff for review. If there is no further information required, we will process the permit application. We will notify the Developer/General Contractor when the permit has been processed and the cost. We will also notify the General Contractor of any subcontractors missing license and bond requirements. We cannot release the permit until all contractors have been licensed and bonded with the Village.

The Village of Tinley Park has approved the updates to our Building Codes to adapt to the International Code Council standards. These standards were approved on September 2, 2016 and can be referenced through Ordinance Number 2016-O-055. The ordinance includes updates to the following code sections:

Village of Tinley Park Building Code 2016
2012 International Building Code
2012 International Residential Code for One and Two Family Dwellings
2012 International Mechanical Code
2012 International Property Maintenance Code
2012 International Fuel Gas Code
2015 International Energy Conservation Code
2011 National Electric Code
2014 Illinois State Plumbing Code
2012 International Fire Code
