Tinley police release new 3-D image of Lane Bryant suspect

The Tinley Park Police Department has released a new 3-D image of the man suspected of killing five women at a Lane Bryant store the morning of Feb. 2, 2008.

The new image, prepared by Michigan State Police, is an enhanced version of the original sketch made in 2008 from an eyewitness account and utilizes the latest in facial identification technology to provide a more life-like representation of the suspect.

“We hope this enhanced version will lead to the identification of the suspect in this horrible crime,” Tinley Park Police Chief Steve Neubauer said.

Police said the suspect is a man between 6’ and 6’2 tall with a husky build and broad shoulders. He appeared to be 25 to 35 years old at the time of the killings, meaning he would be 35 to 45 years old today. He has a medium to dark skin tone.

At the time of the murders he wore braided hair with three to five puffy corn rolls pulled toward the back of his head. One braid hung down the right cheek and had four light green beads on the end.

The man was wearing a dark-colored waist-length jacket and black jeans with embroidery on the back pockets similar to a cursive “G.” He also was also wearing a charcoal gray ski/skull cap.

The suspect’s voice can be heard by calling (866) 853-6222 or by visiting the Village website at www.tinleypark.org.

Those with information on the murders can call the tip hotline at (708) 444-5394 or email lanebryant.tipline@tinleypark.org.
