

## **Fire Department to receive ISO presentation**

Issued: May 10, 2018

The Tinley Park Fire Department recently was graded as an Insurance Services Office (ISO) Class 1 Fire Department, an honor enjoyed by only 200 fire departments in the nation. This new rating, which will go into effect July 1, will result in a reduction of fire insurance premiums to Tinley Park businesses and residents whose insurance companies utilize ISO criteria to determine their premiums.

The ISO will officially present the rating to the Tinley Park Fire Department during a special ceremony next week at Fire Station No. 46.

“Every member of the Tinley Park Fire Department should be proud of this accomplishment, as it would never have been possible without their dedication and commitment to building a better department,” Fire Chief Forest Reeder said. “This is truly a historic event for our community.”
